CHIEF GUEST MESSAGE

On behalf of Public Establishment for Industrial Estates (PEIE), I would like to extend a warm welcome to all exhibitors and visitors to **3rd OMAN PLAST 2016**, the **3rd INTERNATIONAL PLASTICS, RUBBER, CHEMICALS, PRINTING AND PACKAGING INDUSTRY EXHIBITION 2016**. It is only a befitting that the Sultanate of Oman, one of the biggest players in the petrochemical industry, is the host nation for an exhibition, which would become the region's biggest exhibition for the plastics, rubber, chemicals, printing and packaging industry in the near future.

Over the last 45 years, under the visionary leadership of His Majesty Sultan Qaboos Bin Said, the Sultanate of Oman has taken great strides in the development of the Omani industry. The growth rate achieved by Oman in the past few years has been quite encouraging. The Petrochemical industry being one of the main components of the Omani economy encouraging the downstream of Polypropylene and PET, this event will give a great impetus to its further diversification and growth.

One of the fundamental goals of the Oman's Vision 2020 is the development of a private sector capable of optimum use of human and natural resources in an efficient and ecologically sound ways. As per this vision, the industrial sector including the petrochemical, gas-based projects and plastics industries would play a vital role in trying to achieve Oman's economic objectives.

With an impressive array of leading manufacturers and suppliers present this year, **3rd OMAN PLAST 2016** will offer a perfect gateway to reach this highly potential market and holds tremendous prospects of excellent business opportunities and new collaborations.

I take this opportunity to wish all exhibitors, delegates and visitors of the **3rd INTERNATIONAL PLASTICS, RUBBER, CHEMICALS, PRINTING AND PACKAGING INDUSTRY EXHIBITION 2016** a grand success and look forward to welcoming everyone in our beautiful country, the land of warmth, hospitality and comfort.

A blue ink signature of Hilal Bin Hamad Al Hasani, written in a stylized, cursive script.

HILAL BIN HAMAD AL HASANI

CHIEF EXECUTIVE OFFICER, PEIE

MD'S MESSAGE

On behalf of the management and staff, it is my pleasure to welcome one and all of you to **3rd OMAN PLAST 2016**, the **3rd INTERNATIONAL PLASTICS, RUBBER, CHEMICALS, PRINTING AND PACKAGING INDUSTRY EXHIBITION 2016**. I would like to express our gratitude to all our well wishers, sponsors, exhibitors, media partners and visitors whose strong support has been an influential motivation in making this event possible.

3rd OMAN PLAST 2016 is perfectly timed for the continuing boom in Oman's plastics and rubber industry. As the petrochemical industry is a major contributor to Oman's growing economy, this event will give a great impetus to its further diversification and growth as well as highlighting the opportunities this region might offer. The event attracts key industry players and decision-makers from the corporate and public sectors in the region providing a strategic setting to forge business tie-ups and contacts.

3rd OMAN PLAST in its third edition will showcase the latest technology and machineries used in manufacturing of plastics and petrochemicals with participation from different parts of the world. This event will be an excellent platform for exhibitors to publicise and display their products, innovation and services, build brand image and develop leadership in market position in the global areas. It will be an ideal stage for those who are interested to explore and acknowledge the most recent technologies and trends of the relevant market as well as exhibit a vast range of products and services related to analytical instrument.

I would like to take this opportunity to thank everyone for their support and valuable contributions towards the success of **3rd OMAN PLAST 2016**. I wish all exhibitors and visitors a highly productive, interactive and successful event. We look forward to welcoming you again in our **4th OMAN PLAST 2018**.

for SILVER STAR CORPORATION L.L.C.

P.D.NATH

MANAGING DIRECTOR

OMAN PLAST 2014

The plastic mats are being manufactured with high quality products of "polypropylene (PP) plastic mats" using 100% fresh material.

EXPORT CREDIT GUARANTEE AGENCY OF OMAN (S.A.O.C.)

The Omani exporters have long recognized and appreciated that one of the major keys to success is to insure with ECGA of Oman for safe export business. The Agency through more than twenty four years of service to exporters provides confidence, encouragement and incentive to exporters by exploring new buyers and markets world wide. Its services are also highly beneficial to exporters as listed:

The benefits to exporters include the following:-

- Minimize credit risks and maximize opportunities to enhance domestic and export business.
- Provide protection against payment risks due to default or insolvencies from domestic buyers.
- Mitigate risks of non-payment from foreign buyers due to commercial risks such as protected difficult, insolvencies or non acceptance of the goods by the buyer as well as non commercial/political risks.
- Facilitate exporters to extend liberal credit terms to their buyers and compete effectively with other suppliers.
- Allows exporters to avail pre-shipment financing for working capital needs through commercial banks while ECGA of Oman issues guarantees to the banks thus filling security gap needed.
- The Export and Domestic Policies issued by ECGA of Oman can be assigned by Exporters as additional collateral to banks so as to obtain necessary financing for working capital needs.
- Exporters can discount their exports bills as well as their domestic receivables with commercial banks thus improving on their cash flows and liquidity position through ECGA's post shipment financing program with the Banks.
- With ECGA of Oman credit insurance policy, exporters can manage their credit sales prudently and effectively.

The Agency also provides guarantees to confirmation of letter of credit to commercial banks, medium and long term credit insurance, investment insurance, project insurance, bond guarantees, etc.

-Extruder Screen for Plastic & Rubber Processing Machinery

-Hopper Magnet

The year was 1972 and the time perfect, when the state of Gujarat gave birth to the AmbicaGroup. The group, which at present stands as one of the India's largest manufacturers and suppliers of extruder screens, also known as melt filter and woven wire cloth. Built on the foundation of 'Quality, Assurance and Reliability', Ambica is growing at a fast pace with the sole motto of innovation for customers' benefits. We started our endeavors in 1972 with manufacturing of wire mesh and extruder screens. Soon we expanded our activities and initiated developing different shapes and sizes. Our endless journey has crossed the milestone of 4 Decades and is on the pedestal of unmatched excellence. Our avant-garde Research & Development Centre develops proper mesh and sequence suitable for most machines. We believe in long lasting relationships with our customers, by even supporting in your new venture.

EXHIBITORS PROFILE

Product/Company Details:

GneussKunststofftechnik GmbH is one of the technology leaders on the world market in the sector of plastics processing. Since its foundation in 1983, Gneuss has made a name for itself as a supplier of innovative solutions for the plastics processing industry.

Key factors of the company's philosophy are the development and the sales of high-tech products with unique properties. Today, Gneuss' products have the highest technological level worldwide. Many international patents guarantee this technological edge over their competitors.

THE COMPANY'S BUSINESS IS DIVIDED INTO THREE SECTORS:

Filtration Technology:

Development and production of fully-automatic, pressure-constant and process-constant filtration systems/screen changers for the filtration of plastic melts.

Processing Technology:

Engineering/manufacture of extruders and sales of extrusion lines for further processing of PET recycling and polymer material. At the beginning of 2011, the Gneuss PET recycling process received a "Letter of Non-Objection" (LNO) by the US American Food and Drug Administration (FDA), for the use of up to 100 % recycled material.

Measurement Technology:

Production of measurement and control technology, e.g. pressure transducers and temperature sensors for extrusion processes.

EXHIBITORS PROFILE

Product/Company Details:

Zayid& Faisal (ZNF) is a leading independent supplier of PET bottles and jars to the fast growing local market in Oman and abroad. Our clients pack some of the most popular beverages in the country (e.g., water, laban, juices, etc). We are proud to be their reliable partner in their venture, providing speedy and on time delivery. We are constantly innovating to produce lighter weight bottles that optimize performance and material use, while delivering consistent quality, strength and value to our clients.

ZNF was established in 2010 and since then, has supplied more than 30 million bottles to the industry. Our clients include such large players in the water segment as Oasis Water Company, prominent players in the Laban industry such as Modern Dairy Factory (Al Khamail), as well as small regional players with diverse requirements. ZNF produces bottles in the range from 200 ml to 20,000 ml for these clients.

With state of the art Automatic and Semi-automatic machines at its disposal, ZNF has captured the local and international market with its quality products. With the recent launch of its line of jars, ZNF is poised to score higher, leaving the competition in the dust.
